EDUCATION

•**Bachelor of Technology in Instrumentation and Control Engineering(with Hons.)** *2019-23*
NIT, Jalandhar SGPA: 8.32

PERSONAL PROJECTS

•**Full-Stack Ecommerce Web Application Development (MERN Stack)** *Jul 2023 - Aug 2023*

A full-stack e-commerce platform for clients to boost online sales and improve customer engagement.

- Utilized Node.js and Express.js to create robust and scalable server-side applications.
- Designed and managed databases using MongoDB for efficient data storage.
- **Ecommerce Github repository** and Deployed the application on **Cyclic**.

•**Personal Portfolio Website** *Aug 2023 - present*

A React-based web application that allows developers to showcase their skills and achievements to HR.

- Designed and developed a personal portfolio website to showcase my skills, projects, and achievements.
- Included sections for my resume, portfolio, skills, and contact information.
- **Portfolio Github repository** and Deployed the application on **Netlify**.

•**Smart Waste Management System, SWMS(Flutter Mobile Application & IoT Devices)** *Sep 2022 - Apr 2023*

Created an innovative SWMS by integrating a mobile app with IoT devices for efficient waste management.

- It uses IoT sensors to collect real-time data from dustbins and send it to the application for monitoring the fill-level status.
- This Mobile Application displays the real-time status of the dustbins and provides optimized routes for garbage collection.
- **Smart Waste Management System Github repository**

EXPERIENCE

•**Zethic Technologies** *July 2023 - Present*

FullStack Developer, Bangalore OnSite
- **ATS - Smart Cruiter** (Worked on an applicant tracking management system, help organization in their hiring process with futures like: Job creation, Managing applicants
- Job creation, Managing applicants
- Managing applicants (applied, recommended, hired , declined, withdrawn)
- Set up an online interview for candidate.
- Send rejection or accepting emails to hundreds of candidates in a single click
